Mr. H. K. Mitchell, of New Philadelphia, O., speaks of Life Plant in the following emphatic language: Life Plant is a wonder. We have used it

in our family for nearly a year and find it to be all that is claimed for it in giving tone and vigor to the system. It certainly cure rheumatic trouble. In fact I believe it will cure any disease that is reached through the blood. We guarantee the genuineness of

every TESTIMONIAL. The above was simple and easy when the proper method was followed. It is a notable fact in science, that disease germs can not exist in pure matter. There must be some impurity else they die. You cation, and take some poisons fatal to disease germs, but you cannot hope for a cure by that system of treat-ment. You must get at the cause.

Impure blood is the cause of practically ALL diseases. To cure any disease you must by some means purify the BLOOD. Scrofula, Salt Rheum, Rheumatism, Eczema, Hives, Tetter, Catarrh and Asthma, are the most familiar forms of blood diseases. Life Plant purifies the BLOOD. It renews it restores the vital element in the BLOOD. That is why it cures diseases, and prevents disease. It is nature's way. It's the common sense way. Try it NOW. DELAY is DAN-GEROUS.

There will soon be a new cabinet office for the president to fill. A conagreed to the bill creating a depart- the whole thing in the senate. ment of commerce and labor, which if it lives up to its name, will be one ernment. The new department will consist of the bureau of corporations, the bureau of labor, the lighthouse board the light-house establishment, the steamboat inspection, the bureau of standards, the coast and geodetic partment of state, the census bureau, held Sunday. and the fish commission.

It is not to be wondered at that day, \$10.50, at Joseph Bros. Grand Army men are entering a vigorous protest against the proposal to erect a Lee memorial on the battlefield of Gettysburg. Let Lee monuments be erected where the people want them, and no objections will be made. The north fought against everything that he represented and has no occasion to glorify his deeds. The Lee memorial projectors doubtless mean well, but they are acting on a wrong theory. Instead of causing sectional prejudice to subside, a Gettysburg monument to the hero of the Confederates would serve rather to intensify and keep such prejudice alive. The war ended long ago, and the fact that its results are permanent is enough. Let us forgive and forget.

Whenever a new hotel building is mentioned there are many persons who smile incredulously and assume a look, half of superior knowledge, and half of disgust, and exclaim: "Same old story, and will end in the same old way, which means no hotel." The foregoing is an extract from a Toledo paper, although it reads exactly as if it had been written in and for East Liv-

MONDAY, FEBRUARY 9, 1903.

There will soon be a new cabine office for the president to fill. A conference committee of both houses has agreed to the bill creating a department of commerce and labor, which if it lives up to its name, will be one of the most important under the government. The new department will consist of the bureau of corporations, the bureau of labor, the lighthouse board the light-house establishment the steamboat inspection, the bureau of standards, the coast and geodetic partment of state, the census bureau, held Sunday. and the fish commission.

It is not to be wondered at that day, \$10.50, at Joseph Bros. Grand Army men are entering a vigorous protest against the proposal to erect a Lee memorial on the battlefield of Gettysburg. Let Lee monuments be erected where the people want them, and no objections will be made. The north fought against everything that he represented and has no occasion to glorify his deeds. The Lee memorial projectors doubtless mean well, but they are acting on a wrong theory. Instead of causing sectional prejudice to subside, a Gettysburg monument to the hero of the Confederates would serve rather to intensify and keep such prejudice alive. The war ended long ago, and the fact that its results are permanent is enough. Let us forgive and forget.

Whenever a new hotel building is mentioned there are many persons who smile incredulously and assume a look, half of superior knowledge, and half of disgust, and exclaim: "Same old story, and will end in the same old way, which means no hotel." The foregoing is an extract from a Toledo paper, although it reads exactly as if it had been written in and for East Liv-

Carrier On the Rural Route Will Quit Unless Paid More Money.

TOO DIFFICULT

It has now been one week since the delivery of mail started on rural route No. 1 out of this city, and according to Carrier Edward G. Bunting, the outlook for the continuance of the route is not very promising. Bunting states after this month he will refuse to carry the mail over the entire route unless the salary is reased and he is given no encouragement it will be.

The route has been exceedingly dif ficult on account of the very bad roads and for the first few days it was late in the evening before the carrier could get back to the city. Twice he delivered mail with the aid of a lantern, it being dark before he had completed three-fourths of the distance. Today, in accordance with notice given by Senator Allison, the bill making appropriations for the District of Columbia will be taken up. Some por tions of this bill will arouse debate but advantage will be taken of the opportunity to further the efforts to compromise the differences on the statehood bill. An effort also will be made during the week to secure consideration of the Cuban reciprocity treaty. A portion of the time next Saturday will be devoted to eulogies on the lives of deceased members of the house.

It can be stated by authority that unless anti-trust legislation at least reasonably satisfactory to the administration is enacted at the present ses sion, President Roosevelt, on the 5th of March, will call an extraordinary session of the Fifty-eighth congress. The president himself has told members of congress of his desires and of his determination in this regard. It is understood that the announcement as direct and unqualified.

Arbitration of the Question of Preferential Treatment and the Settlement of the Claims of the Allied and Unallied Powers.

Washington, Feb. 9 .- The representatives of the allies here are busily engaged in the preparation of the protocol which they are to sign with Mr. Bowen, Venezuela's representative, for the reference to The Hague of the question whether the blockading powers shall be entitled to prefer ential treatment in the settlement of their claims. The blockade will be raised when the protocols are signed.

Minister Bowen was in communica tion with the English and the Italian ambassadors and the German minis ter. He saw Sir Michael Herbert at the latter's home, the ambassador still having a disagreeable cold. From the instructions he has received Ambassador Herbert has prepared the draft of a protocol, which he submitted to Minister Bowen.

HOUSE AND SENATE.

A Substitute Measure For Consolidation and Admission of Two States.

WORK ON APPROPRIATION BILLS

Time is Limited and Probably the Currency Bill Will Have to Give Way for More Important Matters. Memorial Session Held.

Washington, Feb. 9 .- All indications point to the conclusion of the debate on the statehood bill during the present week. If the plans of the Republican leaders who oppose the erable with kidney and bladder trouble, statehood bill are put into effect the committee on territories will bring in a substitute bill early in the week Swamp-Root is soon realized. It is sold providing for consolidation and admission of two states. This will prob- Increase Indirectly Affects 300,000 ably not be done, however, unless assurance can be secured that the full Republican vote can be obtained for the consolidation. If this plan does ing all about it, including many of the the consolidation. If this plan does thousands of testimonial letters received not take shape Senator Quay is likely from sufferers cured. In writing Dr. Kilmer to press his statehood amendment on & Co., Binghamton, N. Y., be sure and the agricultural appropriation bill and a test of strength would ensue. The vote on this amendment will be very Kilmer's Swamp-Root, and the address, bus bill advocates feel that they have a majority they realize that it will no. be so large as it would be on a direct vote on the statehood bill alone and by itself. There is now some talk of admitting only Oklahoma, but if this should be undertaken it will be only as a last resort and will be postponed until towards the end of the

> Today, in accordance with notice given by Senator Allison, the bill making appropriations for the District of Columbia will be taken up. Some por tions of this bill will arouse debate but advantage will be taken of the opportunity to further the efforts to compromise the differences on the statehood bill. An effort also will be made during the week to secure consideration of the Cuban reciprocity treaty. A portion of the time next Saturday will be devoted to eulogies on the lives of deceased members of the house.

It can be stated by authority that unless anti-trust legislation at least reasonably satisfactory to the administration is enacted at the present ses sion, President Roosevelt, on the 5th of March, will call an extraordinary session of the Fifty-eighth congress. The president himself has told members of congress of his desires and of his determination in this regard. It is understood that the announcement vas direct and unqualified.

House Forecast.

to this class of business. The session is so far advanced that PASSENGER SERVICE minor matters have to give way for the supply budgets and other imperative matters. The friends of the currency bill are still insistent on time for consideration of their bill, but the is difficult to figure how it will be pos-

sible to give it any time. Memorial Session.

The house of representatives yesterday held a memorial session to pay tribute to the memory of the late Senator William J. Sewell and the late Representative Johna S. Salmon, of New Jersey. Mr. Parker, of New Jersey, presided. Chairman Hepburn, of eign commerce, laid before the house the report of the conferees on the department of commerce and labor bill and it was ordered to be printed.

ACREEMENT ON WACE SCALE. Miners-Session Finishes Its

Work Today. Indianapolis, Feb. 9.-The national executive committee of the Mine Workers are in session here. The board will conclude its work today and President Mitchell will leave for Philadelphia. Vice President Lewis will leave for Eastern Ohio, and from there he probably will go to the mining district of West Virginia. The district conferences will be held be tween now and April 1.

It is the intention of the officers to devote much time this year to the unorganized districts of the country. The wage scale signed directly and indirectly affects the wages of 300, 000 miners. Those directly affected are the miners in the states of the central competitive district, composed of Ohio. Indiana Illinois and the Pittsburg district of Pennsylvania.

The miners and operators of the competitive district agreed upon a scale of wages for the ensuing year Saturday afternoon. The price for mining is to be increased 10 cents per ton on one and one-quarter inch screened lurap coal, pick mining, i Western Pennsylvania, the Hocking the basing district of Ohio, and both the block and bituminous districts of Indiana; 6 cents per ton on mine-run coal, pick mining, in the bituminous district of Indiana and at Danvilla

Prospects Bright for Raising of the Venezuelan Blockade.

Arbitration of the Question of Preferential Treatment and the Settlement of the Claims of the Allied and Unallied Powers.

Washington, Feb. 9 .- The repre sentatives of the allies here are busily engaged in the preparation of the protocol which they are to sign with Mr. Bowen, Venezuela's representative, for the reference to The Hague of the question whether the blockading powers shall be entitled to preferential treatment in the settlement of their claims. The blockade will be raised when the protocols are signed.

Minister Bowen was in communica tion with the English and the Italian ambassadors and the German minister. He saw Sir Michael Herbert at the latter's home, the ambassador still having a disagreeable cold. From the instructions he has received Ambassador Herbert has prepared the draft of a protocol, which he submitted to Minister Bowen.

The Italian ambassador, Signor Des Planches, has been at Mr. Bowen's apartments on two occasions with reference to the terms of the protocol and Baron Speck von Sternburg is working diligently on the German protocol. He saw Mr. Bowen for conference regarding some feature of the instrument.

Minister Bowen continues optimistic of an early settlement and speedy raising of the blockade. He is hope ful no perplexing or vexatious prob lems may intervene now that the mat ter has progressed so far and that it will not be long before the whole question is settled in its primary stages, the raising of the blockade, arbitration of the question of prefer ential treatment and protocols signed for the settlement of the claims themselves, including those of the allied and of the unallied powers.

The British protocol provides for the reference of the contention of the allies for preferential treatment to The Hague for settlement, for the payment by Venezuela to Great Britain £5,500 cash and for the immediate raising of the blockade. The may ter of the adjudication of the claims and the collection of the 30 per cent out of which they are to be paid has been left for the second protecol

SORE NECK

Take Scott's Emulsion for scrofula. Children often have sores on the neck that won't heal up. The sores may come and go. Parents may not know what's the matter nor what to do. Scrofula is the trouble and Scott's Emulsion is the medicine.

Scott's Emulsion heals the sores. But that is not all. Scrofula leads to consumption. This is the real danger.

AGREEMENT ON WAGE SCALE. Increase Indirectly Affects 300,000 Miners-Session Finishes Its

Work Today.

Indianapolis, Feb. 9.-The national executive committee of the Mine Workers are in session here. The board will conclude its work today and President Mitchell will leave for Philadelphia. Vice President Lewis will leave for Eastern Ohio, and from there he probably will go to the mining district of West Virginia. The district conferences will be held be tween now and April 1.

It is the intention of the officers to devote much time this year to the unorganized districts of the country.

The wage scale signed directly and indirectly affects the wages of 300, 000 miners. Those directly affected are the miners in the states of the central competitive district, composes of Ohio, Indiana Illinois and the Pittsburg district of Pennsylvania.

The miners and operators of the competitive district agreed upon scale of wages for the ensuing year Saturday afternoon. The price for mining is to be increased 10 cants per ton on one and one-quarter inch screened heap coal, pick mining, it Western Pennsylvania, the Hocking, the basing district of Ohio, and both the block and bituminous districts of Indiana: 6 cents per ton on mine-run coal, pick mining, in the bituminous district of Indiana and at Danvill. the basing point of Illinois.

The price of machine mining is to be increased 8 cents per ton on screened lump coal in Western Pennsylva nia, thin vein, and the Hocking, the basing district of Ohio; 10 cents per ton on screened lump coal in the block and bituminous districts of Indiana, and 6 cents per ton on minerun coal in the bituminous district of Indiana and at Danville, the basing point of Illinois

EARLY SETTLEMENT,

Prospects Bright for Raising of the Venezuelan Blockade.

PREPARING OF THE PROTOCOL

Arbitration of the Question of Preferential Treatment and the Settlement of the Claims of the Allied and Unallied Powers.

Washington, Feb. 9 .- The representatives of the allies here are busily engaged in the preparation of the protocol which they are to sign with Mr. Bowen, Venezuela's representative, for the reference to The Hague of the question whether the blockading powers shall be entitled to prefer ential treatment in the settlement of their claims. The blockade will be raised when the protocols are signed.

Minister Bowen was in communica tion with the English and the Italian ambassadors and the German minister. He saw Sir Michael Herbert at the latter's home, the ambassador still having a disagreeable cold. From the instructions he has received Ambassador Herbert has prepared the draft of a protocol, which he submitted to Minister Bowen.

The Italian ambassador, Signor Des Planches, has been at Mr. Bowen's apartments on two occasions with reference to the terms of the protocol and Baron Speck von Sternburg is working diligently on the German protocol. He saw Mr. Bowen for conference regarding some feature of the instrument

Minister Bowen continues optimis tic of an early settlement and speedy raising of the blockade. He is hope ful no perplexing or vexatious prob lems may intervene now that the matter has progressed so far and that it will not be long before the whole question is settled in its primary stages, the raising of the blockade, arbitration of the question of prefer ential treatment and protocols signed for the settlement of the claims themselves, including those of the allied and of the unallied powers.

The British protocol provides for the reference of the contention of the allies for preferential treatment to The Hague for settlement, for the payment by Venezuela to Great Britain £5,500 cash and for the immediate raising of the blockade. The mater of the adjudication of the claims and the collection of the 30 per cent out of which they are to be paid has been left for the second protocol.

Italy, it has been learned, wishes to have inserted in her protocoj ar article providing for a change in her treaty of amity with Venezuela so as to include the "favored nation" clause such as the other powers' possess. Mr. Bowen bas explained that while he is willing to use his influence to secure this, he can do nothing more in the protocol than recommend it, as the matter is entirely irrelevent to the present controversy.

(Copyright, 1903, by C. B. Lewis, 1 MAN with a patent potato digger had been waiting for Mr. Bowser for half an hour when he reached home the other evening. He said he had an appointment and that Mr. Bowser would make at least \$50,000 by investing \$500, and he talked so glibly that Mr. Bowser felt obliged to let him wait. It was another of Mr. Bowser's fads, and he would probably pick it up with all his usual enthusiasm, to discover after a bit that he was out of pocket.

This season, however, the citizens of selves facing a situation that, to say the least, is grave and may readily bestances, the leading citizens took part, rome appalling. In the midst of the tigors of an unusually, severe winter the supply of fuel has been woefully nadequate. The coal mined one day appears to be swallowed up on the next, and there is no reserve stock on which to draw, as in former years. Forty years or so ago, outside of the large centers of population, wood was the common fuel. It is only in comfrom Spartanburg, S. So today the shortage of coal is so widely felt as to be little of the first class, has been arrested short of a national calamity.

From all sections comes the same though the excitement has subsided. story. There is little coal to be had at any price. In some places mills under false pretenses in collecting have had to suspend operations for lack of fuel, schools have been closed showing a fictitious commission from and heads of families have shut up their houses and taken to hotels and boarding houses. Several communities have been so pressed for fuel that the shutting down of the waterworks and lighting plants has been threatened. Happily these extremes in the coal famine have not yet been reached. In some localities the people have taken the matter into their own hands.

In Nebraska coal is so scarce that the farmers have been compelled to burn corn. At first they started burning fence posts and loose timbers, but now they have nothing left to burn but corn, and this they have been feeding to the dames regardless of the fact that it is worth 35 cents a bushel. At one time the street railway of Omaha was only an hour ahead on its coal supply. Corn is also being used as fuel in central II linois by the farmers.

Even in Pennsylvania the coal fam ine has reached such an acute stage that many industries in the smaller towns have shut down. In the country districts the distress is so great that farmers travel thirty to forty miles to the coal districts with their teams to supply pressing needs.

In the big cities conditions are but little better. Much suffering has reited to the poor. In the great centers the coal is doled out by the pailful, and every effort of the municipal authorities, charitable societies and individual philanthropists has been bent to furnish supplies to this class.

Acute as the situation is, it does not lack its humorous features. Some of the retail dealers have been able to se cure supplies, while others have not

'After a careful investigation of Dr. David Kennedy's Favorite Remedy, a specific for kidney, liver and bladder troubles, rheumatism, dyspepsia and constipation with its attendant ills, we are free to confess that a more meritorious medicine has never come under the examination of the chemical and medical experts of the New York Magazine of Sanitation and Hygiene. In fact, after the most searching tests and rigid inquiry into the record of Dr. David Kennedy's Favorite Remedy, it becomes a duty to recommend its use in unequivocal term to every reader of this journal whose complaint comes within the list of ailments which this remedy is advertised to cure. We have obtained such overwhelming proof of the efficacy of this specific—have so satisfactorily demonstrated its curative powers through personal experimentsthat a care for the interests of our readers leadsus to call attention to its great value

It is not to be wondered at that day, \$10.50, at Joseph Bros. 33-h Grand Army men are entering a vigorous protest against the proposal to erect a Lee memorial on the battlefield of Gettysburg. Let Lee monuments be erected where the people want them, and no objections will be made. The north fought against everything that he represented and has no occasion to glorify his deeds The Lee memorial projectors doubtless mean well, but they are acting on a wrong theory. Instead of causing sectional prejudice to subside, a Gettysburg monument to the hero of the Confederates would serve rather to intensify and keep such prejudice alive. The war ended leng ago, and the fact that its results are permanent is enough. Let us forgive and forget.

Whenever a new hotel building is mentioned there are many persons who smile incredulously and assume a look, half of superior knowledge, and half of disgust, and exclaim: "Same old story, and will end in the same old way, which means no hotel." Carrier On the Rural Route Will Quit Unless Paid More Money

It has now been one week since the delivery of mail started on rural route No. 1 out of this city, and according to Carrier Edward G. Bunting, the outlook for the continuance of the route is not very promising. Bunting states after this month he will refuse to carry the mail over the entire route unless the salary is reased and he is given no encouragement it will be.

The route has been exceedingly difficult on account of the very bad roads and for the first few days it was late in the evening before the carrier could get back to the city. Twice he delivered mail with the aid of a lantern, it being dark before he had completed three-fourths of the distance. During the latter part of the week, the carrier has covered one-half of the route adelphia, is visiting friends in the develop some leases on the Frank each day, and even then did not get West End. back to the city before evening.

ACREEMENT ON WACE SCALE. Miners-Session Finishes Its

Work Today

Indianapolis, Feb. 9 .- The national executive committee of the Mine Workers are in session here. The board will conclude its work today and President Mitchell will leave for Philadelphia. Vice President Lewis will leave for Eastern Ohio, and from there he probably will go to the mining district of West Virginia. The district conferences will be held between now and April 1.

It is the intention of the officers to devote much time this year to the unorganized districts of the country.

The wage scale signed directly and indirectly affects the wages of 300, 000 miners. Those directly affected are the miners in the states of the central competitive district, composes of Ohio, Indiana, Illinois and the Pittsburg district of Pennsylvania.

The miners and operators of the ompetitive district agreed upon scale of wages for the ensuing year Saturday afternoon. The price for mining is to be increased 10 cants pe ton on one and one-quarter inc screened lutap coal, pick mining, i Western Pennsylvania, the Hocking, the basing district of Ohio, and bot! the block and bituminous districts of Indiana: 6 cents per ton on mine-run coal, pick mining, in the bituminous district of Indiana and at Danville the basing point of Illinois.

EARLY SETTLEMENT.

Prospects Bright for Raising of the Venezuelan Blockade.

PREPARING OF THE PROTOCOL

Arbitration of the Question of Preferential Treatment and the Settlement of the Claims of the Allied and Unallied Powers.

Washington, Feb. 9.-The representatives of the allies here are busily engaged in the preparation of the protocol which they are to sign with Mr. Bowen, Venezuela's representative, for the reference to The Hague of the question whether the blockading powers shall be entitled to prefer ential treatment in the settlement of their claims. The blockade will be raised when the protocols are signed.

Minister Bowen was in communica tion with the English and the Italian ambassadors and the German minister. He saw Sir Michael Herbert at the latter's home, the ambassador still having a disagreeable cold. From the instructions he has received Ambassador Herbert has prepared the draft of a protocol, which he submitted to Minister Bowen.

The Italian ambassador, Des Planches, has been at Mr. Bowen's apartments on two occasions with reference to the terms of the protocol and Baron Speck von Sternburg is working diligently on the German protocol. He saw Mr. Bowen for conference regarding some feature of the instrument.

Minister Bowen continues optimisraising of the blockade. He is hopeful no perplexing or vexatious probwill not be long before the whole stages, the raising of the blockade, arbitration of the question of preferntial treatment and protocols signed and of the unallied powers.

The British protocol provides for the reference of the contention of the allies for preferential treatment to The Hague for settlement, for the payment by Venezuela to Great Brited lump coal in Western Pennsylva ain £5,500 cash and for the immedinia, thin vein, and the Hocking, the ate raising of the blockade. BOWSER HAS A STREAK

He Grows Suddenly Prudent and Turns Down Several Good

[Copyright, 1903, by C. B. Lewis.] MAN with a patent potato digger had been waiting for Mr. Bowser for half an hour when evening. He said he had an appointment and that Mr. Bowser would make at least \$50,000 by investing \$500, and he talked so glibly that Mr. Bowser felt obliged to let him wait. It was another of Mr. Bowser's fads, and he usual enthusiasm, to discover after a bit that he was out of pocket.

"If you remember," began the man, "I called at your office with my Universal potato digger about two weeks ago, and you said"

"I don't want it," interrupted Mr.

Mrs. Bowser heard him with amazement, and after the caller's departure she looked sharply at Mr. Bowser to see if his face betrayed evidences that he was off in his mind. It didn't. It was calm and serene, and he was apparently in his normal condition.

"The man must have been a fool to think he could catch me with any such bait as that," he remarked as he sat down to dinner, and no more was said on the subject.

The meal was scarcely over, however, before the bell rang and a second stranger was admitted. He was a man who had compounded a cough sirup which all creation would buy as

the farmers have been compelled to burn corn. At first they started burn ing fence posts and loose timbers, but now they have nothing left to burn but corn, and this they have been feeding to the flames regardless of the fact that it is worth 35 cents a bushel. At one time the street railway of Omaha was only an hour ahead on its coal supply. Corn is also being used as fuel in central IIlinois by the farmers.

Even in Pennsylvania the coal fam-Ine has reached such an acute stage that many industries in the smaller towns have shut down. In the country districts the distress is so great that farmers travel thirty to forty miles to the coal districts with their teams to supply pressing needs.

In the big cities conditions are but little better. Much suffering has reulted to the poor. In the great centers the coal is doled out by the pallful, and every effort of the municipal authori ties, charitable societies and individua philanthropists has been bent to furnish supplies to this class.

Acute as the situation is, it does not lack its humorous features. Some of the retail dealers have been able to secure supplies, while others have not
